Field of the Invention The present invention relates generally to the field of cutting tools, and more particularly, to cutting tools employing a spring-biased cutting bit. II. Description of the Prior Art U.S. Pat. No. 6,929,076 describes an assembly for the production of a plurality of bi-metallic components which can be formed by pressing and coining a bimetallic blank. The assembled tool is also provided with a cutting edge and a process of forming said cutting edge is used which comprises the steps of forming a cutting edge, comprising a convex portion and a concave portion, and is adapted to engage the surface of the component, engaging said cutting edge on the component and coining said cutting edge on the component. According to a preferred embodiment of the present invention, the assembly further comprises a biasing means for applying a force to the component parallel to the component surface such that said convex portion of the cutting edge is forced away from said component surface. The solution provided by the above-described solution in the '076 patent is capable of reducing the cutting edge into a generally concave shape. There is, however, the possibility that certain applications might require a convex cutting edge.WWE Superstar Sami Zayn and WWE Superstar Becky Lynch are both two of the most well-known names in WWE right now.
